

■ GENERAL DESCRIPTION

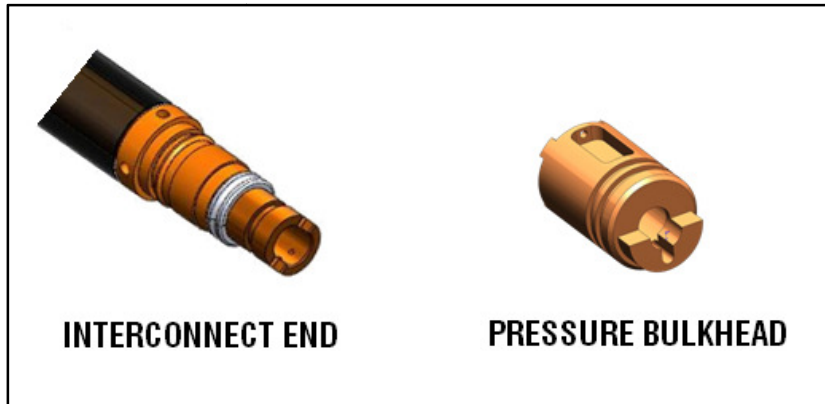

This precision tool and others like it, provide quick quality control dimensional checking of wear components for use in drilling applications. With the *Interconnect and Module End Go-Gage™*, service technicians can easily check and replace worn mechanical parts. Removing these worn parts reduces the possibility of future damage to connectors caused by mechanical movement between intermodule ends.

■ FEATURES

- Made of Tool Steel and surface hardened.
- Manufactured to a tight tolerance fit to enable accurate measurements.
- Instructional datasheet included with each Go-Gage™.

■ FOR USE WITH:

■ ORDERING INFORMATION

Part Number	Description
800-00031-01	Interconnect and Module End Go-Gage™

■ ADDITIONAL GO-GAGE™ PRODUCTS

- MULESHOE KEY GO-GAGE™
- HELIX GO-GAGE™
- HELIX SHAFT GO-GAGE™
